Pacsafe® stands behind its materials and workmanship unconditionally by providing a 5 year warranty from the date of purchase on all Pacsafe® products, protecting them against malfunction or defect.

#### Pacsafe® Turtle Fund

We haven't forgotten our roots. Initially inspired by the turtle and its independent global wanderings, we believe in sustainability and doing everything we can to work with local communities at a grass-roots level to ensure that the sea turtle doesn't become the next Dodo. By outsmarting the threats they face, we'll help protect their natural habitats, focus on breeding programmes and raise awareness.

# The Pacsafe® Original anti-theft backpack & bag protector

**outsmart thieves, bag snatchers & bag slashers**

#### anti-theft features:

Smart eXomesh® cage system, locks closed and locks to fixture.

See page 56 for more details.

## Smart travel gear

We believe in the spirit of adventure. Getting off the beaten track and heading down the back alleys, free to explore possibilities and opportunities. But to tear up the map, to be spontaneous and to suck the marrow out of a travel experience, takes confidence. It takes a sense of security that only comes with knowing you have the right gear to outsmart the threats that may lay in wait.

Let's face it, nobody likes getting ripped off. We hate it and it's not just 'part of the experience'. Having your gear stolen when travelling affects your personal security. Ever been stuck in a foreign country without any money or a passport? We have and trust us, fun isn't a word that springs to mind. That's why we're dedicated to creating smart new ways to keep your gear secure.

Think you're safe in a busy café in Rome? Think again. Opportunistic thieves are everywhere and aren't just hiding around Las Ramblas, Barcelona or on the trains of Southern India. So keeping an eye on your stuff, or simply being extra alert and cautious just isn't enough. After all, why should you have to spend your holiday and adventure worrying about your gear? Travel should be about freedom. About feeling safe out on the road less travelled.

The truth is, we're independent souls at heart. It's that sense of freedom that courses through our veins and it's the itch we feel, when we're chained to a desk too long. That's why we're founded on travel and escape whenever we can. This is and never will be a job to us, it's our passion. It's in our blood. Yet wherever we go in the world, we listen and we learn from you. Real travellers, with real stories and very real experiences.

Hey, it's no coincidence our logo's a turtle. It's what inspired us to begin with. With his protective armour he can wander the globe safe and sound. No inhibitions and no holding back. Like him, when your gear's secure, you can do more.

# smart anti-theft technology™

At the heart of every innovative Pacsafe® product is one clear purpose. To help you outsmart threats - the pickpockets, the bag slashers, the bag snatchers and those sneaky, opportunistic thieves. We keep you one step ahead of the game by keeping your gear secure.

In order to create products that achieve this, we have developed a wide range of innovative devices, methods and unique systems that put you in control. Designed for travellers, by travellers. Engineered and tested to stand up to the rigors of real adventure travel, and yet simple enough for everyday use.

At the heart of most, if not all of our products is what we call our eXomesh® system. It's our original patented wire mesh design. Inspired by backpackers in South America who used chicken wire and wrapped it around their bags to protect their gear, our 360° eXomesh®

locking system now takes this further and uses a lightweight, flexible, high-tensile stainless steel wire and heavy duty locking cable with a patented locking device to create a slashproof protective cell. Better yet, it locks to a secure fixture so you can strap it down safe while you get on with your adventure.

As leaders in anti-theft technology, we weren't just content to leave it there. We've pushed our technology further with a range of smart anti-theft devices such as our discreet eXomesh® fused nylon slashguards, slashproof straps & guards, award-winning RFIDsafe™ blocking material, as well as smart Turn & Lock security hooks™, buckles, clips, locks and a puncture resistant ToughZip™ that keeps unwanted hands off and out of your bag.

Our smart features create additional barriers for thieves by being the right feature, in the right place, at the right time.

outsmart thieves™

## pickpockets

**new puncture resistant ToughZip™, smart zipper security™ and smart flap hooks**

Smart zippers fasten to concealed clips making it harder for pickpockets to unzip and whip out your valuables. Our smart flap hooks™ also slide and lock bag flaps into place and prevent sticky fingers from simply lifting the flap up and taking what they want, whilst our **new puncture resistant ToughZip™ protects luggage against forced entry with a ballpoint pen or similar object.**

## strap slashers

**slashproof straps**

Flexible, lightweight, stainless steel wire is integrated into our adjustable Carrysafe® straps making it invisible to the eye, yet very effective at preventing bag slashers from slicing through and running off with your gear. Our wallets also keep valuables secure with a low profile slashproof metal chain.

## gear thieves

**360° eXomesh® locking system**

Our patented, flexible, stainless steel wire mesh comes in two forms - It can either be thrown externally over backpacks and bags, or it's laminated between the fabric to form a stealth-like portable safe. Both can be locked closed to form a 360° slashproof protective cell which locks to a secure fixture.

## bag slashers

**eXomesh® slashguards**

Slashers often like to target exposed side and bottom panels of bags, which cause valuables to fall out and in to the palm of their hands. Our lightweight slashguards are built into and concealed in these vulnerable areas, protecting your gear from a quick slash-and-run theft. Our **new eXomesh® protection in our luggage** extends the full length of the bag protecting your gear from opportunistic theft or if it's snagged by a conveyor belt or luggage handlers.

## bag snatchers

**dual release security buckle, turn & lock security hooks™ and smart clips & locks**

These cleverly integrated and easy to use devices keep an eye on your gear, when you can't. Attached to our Carrysafe® straps and chains are our innovative Turn & Lock hooks™ or dual release security buckles which allow you to detach the bag strap, wrap it around a secure fixture and lock it in place to prevent snatch-and-grab theft.

## identity thieves

**RFIDsafe™ blocking material**

Most passports, credit cards and ID cards now contain a RFID micro-chip. This chip contains all your personal, sensitive information. Identity thieves are able to access this information from up to 10ft away with the help of an RFID reader. Our award-winning RFIDsafe™ blocking material prevents your data from falling into the wrong hands by blocking out virtually all transmissions (blocks radio frequencies between 10 MHz - 3 GHz).

# Adventure Travel

As you trek Bhutan, swim with sharks in Cape Town, scale the korst limestone cliffs of Yangshuo or get some shut eye on a train down to Southern India, the last thing you need, or want, is to be worried about your gear. Our adventure travel gear is designed and engineered to keep your valuables safe from the prying hands of pickpockets, and the "blink and you'll miss 'em" bag snatchers and slashers. Get your adrenaline pumping the right way and not from the anger and frustration that comes from losing your passport, camera or money.

puncture resistant ToughZip™

**Secure luggage arrives in the wild.**  
toursafe™ collection

 **outsmart thieves,  
bag slashers & luggage pilferers**

Take a load off while you flashpack and get off the beaten track with the world's most secure adventure luggage collection:

- eXomesh® slashguards
- Puncture resistant ToughZip™
- Smart zipper security™
- Lockable kissable zip sliders for TSA padlock

Take a load off while you backpack or cruise through the mysterious Golden Triangle or discover the hidden wonders of Africa with the newly launched Toursafe™ adventure luggage series. The puncture resistant ToughZip™ protects your luggage against pilfering and forced entry by a ballpoint pen, while eXomesh® protection deters against opportunistic thefts and prevents valuables falling out if your luggage is damaged in transit. The soft-sided, semi-collapsible, secure luggage series

comes in a variety of lightweight sizes making it the perfect companion for those seeking peace of mind on their next adventure.

## anti-theft 21.5" (55 cm) wheeled carry on new item

toursafe™ 21 (55)

**outsmart thieves, pickpockets & luggage pilferers**

The Toursafe™ 21 is a secure, soft-sided, semi-collapsible carry-on piece with puncture resistant ToughZip™ and lockable zipper pullers to prevent sneaky hands forcing their way in. eXomesh® protection also prevents gear from coming out if your bag is ripped on your adventure or while in transit.

-  Black Model # PF400BK
-  Brick Red Model # PF400BD
-  Steel Blue Model # PF400ST

### anti-theft features

- eXomesh® slashguards
- Puncture resistant ToughZip™ (main compartment only)

### specifications

- Materials: 420 denier nylon square dobby, PU1000mm coating
- Dimensions (W x H x D): 37 x 55 x 23 cm / 14.5 x 21.5 x 9 in
- Weight: 2.8 kg / 6.17 lbs
- Volume: 35 L / 2135 in³

### additional features

- Front zippered pocket (large enough for a magazine or 13" MacBook) with 2 slip pockets
- Main compartment with mesh pocket for increased organisation
- Lockable kissable zip sliders for TSA padlock
- Lightweight, durable EVA mold backing
- Single aluminum tube handle with comfort grip that locks into place when not in use
- Side mounted smooth rolling wheels
- Padded top and side haul handles
- Drawstring compression for easy packing
- \* Padlock not included

MacBook compatible

Patents pending.

## anti-theft 25" (63 cm) wheeled duffel new item

toursafe™ 25 (63)

**outsmart thieves, pickpockets & luggage pilferers**

The convenient wheeled durable duffel is roomy, spacious and ideal for 1-3 week long single or multi-destination trips. The book-style zippered opening allows easy access to your wardrobe, while the eXomesh® technology stands up to the not-so-delicate (and occasionally dishonest) baggage handlers by protecting items from falling out while in transit.

-  Black Model # PF401BK
-  Brick Red Model # PF401BD
-  Steel Blue Model # PF401ST

### anti-theft features

- eXomesh® slashguards
- Puncture resistant ToughZip™ (main compartment only)

### specifications

- Materials: 420 denier nylon square dobby, PU1000mm coating
- Dimensions (W x H x D): 44.5 x 63.5 x 25 cm / 17.5 x 25 x 10 in
- Weight: 3.3 kg / 7.27 lbs
- Volume: 60 L / 3661.2 in³

### additional features

- Front zippered pocket large enough for a magazine or 15.4" MacBook plus 2 internal slip pockets and 1 mesh pocket
- Main compartment with mesh zippered pocket for internal organisation
- Lockable kissable zip sliders for TSA padlock
- Lightweight, durable EVA mold backing
- Single aluminum tube handle with comfort grip that locks into place when not in use
- Side mounted smooth rolling wheels
- Padded top and side haul handles
- Drawstring compression for easy packing
- \* Padlock not included

MacBook compatible

Patents pending.

## anti-theft 29" (75 cm) wheeled duffel new item

toursafe™ 29 (75)

**outsmart thieves, pickpockets & luggage pilferers**

For those 4 week long adventures or trips where 3 pairs of shoes just simply aren't enough, look no further than the Toursafe™ 29. Lightweight, semi-collapsible, secure from forced zipper entry with a ballpoint pen, eXomesh® slashguard protection and a durable EVA molded back panel the 29" wheeled duffel is a travel companion you can rely on.

-  Black Model # FF402BK
-  Brick Red Model # FF402BD
-  Steel Blue Model # FF402ST

### anti-theft features

- eXomesh® slashguards
- Puncture resistant ToughZip™ (main compartment only)

### specifications

- Materials: 420 denier nylon square dobby, PU1000mm coating
- Dimensions (W x H x D): 49.5 x 74 x 27 cm / 19.5 x 29 x 10.5 in
- Weight: 3.8 kg / 8.37 lbs
- Volume: 90 L / 5492 in³

### additional features

- Upper front zippered compartment with 3 slip pockets and a mesh zippered pocket
- Main compartment with mesh zippered pocket for internal organisation
- Lockable kissable zip sliders for TSA padlock
- Lightweight, durable EVA mold backing
- Single aluminum tube handle with comfort grip that locks into place when not in use
- Side mounted smooth rolling wheels
- Padded top and side haul handles
- Drawstring compression for easy packing
- \* Padlock not included

MacBook compatible

Patents pending.

### Outsmart pickpockets with puncture resistant ToughZip™

Our new puncture resistant ToughZip™ help prevent pickpocket pilfering and forced entry into Toursafe™ luggage with a ballpoint pen or similar sharp object.

# PICKPOCKET HOTSPOTS\*

Pickpockets can strike anywhere at any time. Be prepared and stay alert especially when visiting these cities.

1. Barcelona, Spain
2. Rome, Italy
3. Prague, Czech Republic
4. Madrid, Spain
5. Paris, France
6. Florence, Italy
7. Buenos Aires, Argentina
8. Amsterdam, Netherlands
9. Athens, Greece
10. London, England

Ultimatesafe™ series is patented in: Australia: 695896; Europe (OHIM): EP0878143; Germany: DE69803812.6 / EP878143; Ireland: 0878143; Netherlands: 0878143; UK: EP(UK)0878143; USA: 6,026,662 & 6,244,081; Netherlands, UK, France, Europe: EP1941812; Germany: EP1941812 / DE6020070138620. Additional patents pending.

\*As per TripAdvisor's travellers and editor list, 2010

The **Ultimatesafe™** is the "Fort Knox" of backpacks and highlights the premium of our patented, innovative anti-theft security features. Its camouflaged cage is so smart that thieves and slashers won't even see the high-tensile stainless steel running through your backpack. The best thing about the Ultimatesafe™ is it contains a 20L portable safe. So slip it out your backpack, lock up those valuables and anchor it to any secure fixture you can think of. The only thing you need to worry about is - remembering where you left it.

## anti-theft backpack **RFID SAFE** ultimatesafe™ 22L

**outsmart thieves, bag snatchers & bag slashers**

This medium sized backpack is ideal for short breaks out of the city and urban commutes. The 12L removable lock and leave eXomesh® safe, padded laptop and iPad® sleeve keeps can't-live-without-gadgets and valuables safe from sticky fingers, while the RFIDsafe™ blocking pocket prevents personal information and data from being read by the wrong people.

*outsmart thieves*

## Outsmart thieves & bag snatchers with dual release security buckles

This smart buckle has a dual release button in order to open and close it. This new opening method confuses the unsuspecting thief who won't waste time trying to unfasten it. This new innovation also allows you to attach your bag to a secure fixture, be it the leg of a table or around a palm at a beach adding a further deterrent to opportunistic thieves.

**pacsafe**  
smart travel gear

The Venturesafe™ Collection

# Urban & Leisure Travel

The concrete jungle with its bright lights is an enticing travel destination, as well as home to many an urbanite and city slicker. With its bustling crowds, packed buses, jostling markets, fast-paced buzz and city noise, you can never be too sure who's eyeing up that laptop, phone or wallet stuffed full of cash. Our Urban & Leisure gear make sure that you're able to let your guard down and relax, appreciate the art at a museum, or catch-up with friends without having to be suspicious of everyone who glances your way.

For the young, street smart, upwardly mobile urbanite who wants to be seen but not seen to be trying. Searching to make his mark in an overcomplicated world he finds reassurance in going back to his roots. Simple understated styling injected with a dose of laissez faire edginess. The **Z-series™** answers his call with a tough outer canvas fabric that masks an even tougher, slashproof eXomesh® cage system. The patented mesh weave imprint and retro old school touchpoints call back to Pacsafe's unique heritage.

## anti-theft urban backpack new item

### Z-28 the heritage collection

**outsmart thieves, bag slashers & bag snatchers**

A tough canvas fabric combines with the even tougher patented 360° eXomesh® locking system to create a unique 28L backpack. The removable 17" MacBook and iPad® / tablet compatible sleeve, quilted back support, internal and top zippered pockets and sternum & waist strap add functionality and practicality to this one of a kind backpack.

### Outsmart thieves & bag snatchers with turn & lock security hooks™

These small smart devices pack a whole lot of intelligence. The hook unfastens so that you can fasten your bag to a secure fixture, be it the leg of a table or around a palm at a beach. What's more, these smart hooks have a special turning mechanism which actually locks the hook making it harder for a bag snatcher to make an easy getaway.

outsmart thieves™

# Women's Travel

A woman's bag is her life. It carries more than just daily essentials and valuables, it carries photos laden with memories, that special key-ring or lucky charm, maybe even an ipod with a special mix that only they seem to understand. To have them stolen, isn't just the loss of a bag, it's the loss of key essentials that she just can't live without. That's why our stylish, fashionable Women's Travel gear is designed to keep valuables organised, easy to find and extra secure.

Designed for the young and the young at heart, the **Slingsafe™ GII** series is as slim, as it is fun, sporty and light. You'll fall in love with this fresh, durable yet smooth, origami-inspired collection. Each bag sits effortlessly against the body and the printed fabric liner adds a fun, sassy dimension to this contemporary series. Pacsafe's slashproof straps, eXomesh® slashguards and RFIDsafe™ blocking pocket gives you an extra sense of security while you're out travelling it up in style.

# Savvy Female Tips

If you're one of the many smart, independent women travelling around the globe, remember to stay safe with our top smart travel tips.

1. **Stick to the day.** When booking your trip make sure to arrive during the daytime. You don't want to be wandering streets at night looking for your hotel.
2. **Fashion sense.** Be aware of local dress codes and while you can still look attractive, don't go over the top and attract unwanted attention.
3. **Fake it.** If you need to sign in to a registry book make sure to just use your initial, nickname or even a fake first name if you can.
4. **Keep documents safe.** Stash cash, travel documents and essentials in a secure portable safe or if you take them out, ensure they're in a slashproof bag with Smart Zipper Security™.
5. **Copy, copy, copy.** Scan important travel documents and email them to yourself prior to travel. Also, photocopy your identity documents and keep a spare in a hidden place or secret pocket.

Classic and practical are the two words that define the ever-popular **Citysafe™ GII** series. The **Citysafe GII's** stylish silhouettes disguise the durable, water-repellent fabric, while the eXomesh® slashguards, RFIDsafe™ blocking pocket and slashproof straps ensure your valuables, personal information, momentos and personal items don't end up in the wrong hands.

### Outsmart thieves & bag snatchers with turn & lock security hooks™

These small smart devices pack a whole lot of intelligence. The hook unfastens so that you can fasten your bag to a secure fixture, be it the leg of a table or around a palm at a beach. What's more, these smart hooks have a special turning mechanism which actually locks the hook making it harder for a bag snatcher to make an easy getaway.

*outsmart thieves™*

**anti-theft travel handbag**  
citysafe™ 100 GII  
model # PB144PM

# Camera Travel

Photography has become an integral part of any travel experience. It plays an active role in capturing and sharing your experience with others. With an increased amount of camera gear now moving about the planet comes increased opportunity for pickpockets, bag slashers and thieves. Gone are the days of getting your camera stolen and being left with only the film, if only. Today, smart cards and other compact storage is more likely to be stolen with your camera, so having the right gear is more important than ever before. Pacsafe's® new anti-theft camera gear will help you remember your adventure for all the right reasons.

The new Camsafe™ Venture series has been designed for the photography enthusiast, traveller and semi-pro photographer in mind. Each one has been created to ensure you don't look like a tourist, (its a camera bag that doesn't look like a camera bag!) The fresh design and durable fabrics stand up to rugged adventure trips and off the beaten track holidays, while innovative anti-theft features including an RFIDsafe™ blocking pocket work hard to outsmart those looking to steal your gear and memories.

## anti-theft camera shoulder bag

camsafe venture™ V8 **new item** **RFID SAFE**

**outsmart thieves, strap slashers & bag snatchers**

This compact, adventure camera shoulder bag not only protects your camera from the rigours of travel, but also works hard to prevent valuable equipment and memories from disappearing in the blink of an eye. The secure boomerang handle provides fast top access to your camera so you never miss that picture perfect moment!

-  Black Model # FD200BK
-  Beach Grey Model # FD200BG
-  Sunset Red Model # FD200SR

### anti-theft features

- eXomesh® slashguards
- Slashproof Carrysafe® strap

  - EF 70-300mm f/4.5-5.6 DO IS USM

# 5 SMART TRAVEL CAMERA TIPS\*

Outsmart gear thieves and protect your equipment with these easy travel tips.

1. Keep a description list of your equipment and note down the serial numbers
2. Permanently label your equipment. Thieves aren't likely to take something which can be identified
3. Carry equipment in low key bags that don't bear camera brand logos
4. Make sure your camera strap is not emblazoned with a camera brand logo
5. Always lock and secure your bag even on an airplane. If left in your hotel room make sure it's locked safely to a secure fixture.

- Length: 80 - 145 cm / 31.5 - 57.1 in
- Weight: 71 g / 2.5oz

## additional features

- Additional connector included for ease of transfer between devices

Patents pending.

## Outsmart bag snatchers & slashers with our 360° eXomesh® locking system

Get the better of opportunistic thieves with our flexible, high-tensile stainless steel wire that creates a protective slashproof cell around your gear. Don't worry, it's fully adjustable and the metal reinforced locking device made from high-impact resistant polycarbonate means you can safely lock your equipment to a secure fixture.

# RFID **STOP** ((RFID)) THEFT Accessories

Whether you know it or not, RFID chips and tags are all around us. They make the little things in life convenient and easy, things like automatic toll payments, swiping your card on public transport to pay to even checking out a book in a library. The most recent RFID installment has been into our can't-go-on-holiday-without items. Our passports and credit cards. These RFID chips keep track of our personal information, what we've spent and where we've been. Unfortunately, with improved accessibility and convenience, comes improved technology for thieves looking to steal your identities and access your bank accounts, without you even knowing. Our award-winning range of RFIDSafe™ blocking material and accessories stops this from being an issue and is designed to be just as good looking, as it is effective from blocking out those nosy RFID thieves.

The new **RFIDexecutive™** series is a stylish, genuine leather wallet range. Pacsafe's RFIDSafe™ blocking material is built into each sleek, contemporary piece to help protect your personal information stored on your credit cards and passport from being stolen by digital savvy thieves. Whether you're headed to your next business meeting, impressing a date or heading off on your next holiday, you can relax knowing your information is safe.

## RFID-blocking credit card holder **new item** **RFID SAFE** RFIDexecutive™ 25

## Outsmart identity thieves with RFIDsafe™ blocking material

**RFID SAFE**

Most passports, credit cards and ID cards now contain a RFID micro-chip. This chip contains all your personal, sensitive information. Identity thieves are able to access this information from up to 10ft away with the help of an RFID reader. Our award-winning material prevents your data from falling into the wrong hands by blocking transmissions from 10 MHz - 3 GHz.

*outsmart thieves*

## Outsmart thieves & bag snatchers with dual release security buckles

These small smart devices pack a whole lot of intelligence. This smart buckle has a dual release button in order to open and close it. This new opening method confuses the unsuspecting thief who won't waste time trying to unfasten it. This new innovation also allows you to lock your bag to a secure fixture, be it the leg of a table or around a palm at a beach.

# Stop identity theft

With 11 million Americans\* affected by identity theft every year and with the new electronic RFID chips installed in your credit cards and passports, identity theft is unfortunately set to rise.

### What is RFID identity theft?

RFID micro chips can be found in your passport, credit cards, bank cards and ID cards. Each chip emits radio transmissions which can be read and downloaded by thieves without you knowing by using a hand-held RFID-reader from up to 10 ft away. Reduce your risk of identity theft with our award-winning RFIDsafe™ passport and credit card protector.

### How do I know if I'm at risk?

Your passport or bank and credit cards will have one of these symbols on them.

### How do thieves steal my information without me knowing?

Easily bought hand-held RFID readers can be bought online. The portable, small devices taps in radio transmissions coming from your bank card or passport and uploads the information from up to 10ft away.

### What information can identity thieves access?

### How it works:

Pacsafe's RFID-blocking wallets and accessories use a special award-winning RFID-blocking material. The unique material blocks transmissions and stops RFID readers from gaining access to your personal information and data.

# Travel Accessories

Ask any seasoned traveller and they'll tell you the secret to successful travel is all in the accessories they take. Not just considered 'extra items', travel accessories are essential for making a holiday, long adventure, short getaway, business trip or escape, as easy and as stress-free as possible. They keep the bare necessities like your passport, tickets and cards organised, in-check and easy to find. Our Travel Accessories go one step further to make sure that those necessities are also safe, secure and exactly where they should be.

The **Pacsafe**® series was the original and our first. Like any first, it stays with you. Its smart patented 360° eXomesh® locking system is an adjustable high-tensile stainless steel device that locks closed and locks to a secure fixture. Throw it on a variety of backpacks, soft-sided wheeled luggage or a duffel bag then lock it and leave it while you head out to meet the adventures that lay in wait.

## anti-theft backpack & bag protector

 **outsmart thieves, bag snatchers & bag slashers**

**anti-theft features:** Smart 360° eXomesh® locking system, locks closed and locks to fixture.

Model # PA000NT

- Folds to (W x H x D): 12 x 19 x 5 cm / 4.7 x 7.5 x 2 in

## Outsmart thieves, bag snatchers & bag slashers with our unique locking device

The metal reinforced locking device made from high-impact resistant polycarbonate (that's the same laminate stuff used in bullet-proof glass), ensures your bag's a deterrent not a target.

While you're out and about exploring, the **TravelSafe™** series' portable safes will protect and look out for your valuables. Each easy-to-use safe securely stores and locks down items, from your ipod, jewellery and passport, to your camera, laptop and blackberry. With its patented 360° eXomesh® locking system, you'll

be able to lock it closed and to a secure fixture in your hotel room, by the pool, in a car or in-flight. And when you're not using it, it even conveniently folds down to fit into your luggage.

## portable safe travelsafe™ 100

# Hotel Room Anti-theft Tips

Think your gear's safe in a hotel? Think again. 'Door pushers' saunter down corridors looking for their opportunity to strike and hotel managers can say they have a hotel safe which is really a drawer. Be vigilant on holiday with a few simple tricks.

1. **Duplicate keys.** Take it with you even when travelling alone. It's easy for anyone to walk up to a hotel counter and take or ask for it.
2. **Don't prop open the door.** Even for a second.
3. **Don't leave anything in full view.** Temptation is temptation. Remember your laptop or iPad® could be someone else's life savings.
4. **Always lock your backpack** and fasten it to something solid or put your valuables into something that can be tied and secured to a fixture like a pipe.
5. **Lock up.** Remember to check the door is shut and locked. If possible always use a deadbolt.

Discreet, hidden and well camouflaged. The soft, lightweight **Coversafe™** secret series is designed to be worn comfortably under clothing. Slip your valuables such as travel documents, cash and cards into one of our breathable travel wallets and get on with your adventure knowing that your valuables are securely close at hand and hidden from view.

## secret waist wallet

**coversafe™ 25**

**outsmart thieves & pickpockets**

Keep your cash and cards safely on you while exploring the great outdoors. The soft elastic waist band also ensures comfort and non-slip support.

### additional features

- Storage pouch included

Patented in: USA 6,244,081. Additional patents pending.

## Outsmart thieves & bag slashers with eXomesh® slashguards

Laminated and concealed from view, the flexible stainless steel wire mesh is built into vulnerable areas of your gear. That way, you can still look stylish while you're going to and from work, making your way through the crowds and hitting the town for a night out. What's more, those sneaky bag slashers won't know what hit them or their box cutter.

outsmart thieves™

With increased security at airports, there are times when Transport Security Administration (TSA) agents need to check your bags before they join you on the plane.

Unbeknownst to you, your bag will be opened and the lock protecting your gear can be broken rendering it useless when you arrive at your destination. Thankfully, our Travel Sentry® approved locks mean TSA (US) agents and HRSC (UK) officers can open and relock your bag using codes and secured tools.

## TSA accepted luggage locks prosafe™ 620

Black  
Model #  
PE272BK

### specifications

## Outsmart thieves and pickpockets with smart zipper security™

Our concealed zipper clips make it difficult for crafty, opportunistic pickpockets to slide open your bag and steal your valuables. Hidden from view, they won't even know where to begin. If they need to work something out, they won't be hanging around to work out how.
